

WARNER GLEN WINES TASTING NOTES

2023 CHARDONNAY

The very best fruit was used in the 2023 Warner Glen Chardonnay. Using fruit from our low cropped sustainably managed southern Margaret River vines, the wine displays restrained power and elegance while retaining an essential lively acid structure that is the signature of the region.

30% new Medium toast French oak barriques were used with the wine being in barrel for 6 months with lees stirring for added complexity. Layers of flavours and aromas abound with the wine having a wonderful intensity, great structure and palette weight.

The 2023 Warner Glen Chardonnay is a well-balanced, powerful, yet elegant wine with great persistence of flavour.

Viticulturist	Glen Harding
Variety	Chardonnay 100%
Fruit source	Southern Margaret River
Alcohol	12.0%
Cellaring	Drink now to 2028
Colour	Straw coloured with pale green hues.
Bouquet	Aromas of vanilla, ripe peach and fig, with underlying nuances of lemon sherbert.
Palate	Delightfully complex, with great persistence and intensity. The oak is well integrated with the fruit characters of fig and peach creating a lingering persistent finish without being over powering. The freshness derived from the cooler southern Margaret River areas gives the wine a clean crisp finish with hints of lemon sherbert.
